If you need to provide emergency first aid then the following guidelines should be considered: (As per the St John's Ambulance Approved Code of Practice)

- Stay calm but act swiftly and observe the situation. Is there any danger of further injuries?
- Listen to what the injured person is saying
- If the injury is minor, alert your first aider to take appropriate action
- If the injury requires specialist treatment, call the emergency services
- Deal with the rest of the group and ensure that they are adequately supervised
- Do not move someone with major injuries - wait for the emergency services
- Contact the injured person's parent/carer
- Complete an incident/accident report form

Don't forget to record any accident/incident in an accident/incident report form, which can be found on the notice board. This should be completed in full and then passed on to a member of the committee, to ensure it is officially recorded and any necessary action is taken.
